# 7SIGNAL® AGENTS

# KEEPING DEVICES AND USERS CONNECTED WITH 7SIGNAL

7SIGNAL Agents empower organizations to continuously monitor the wireless network from any Windows, Android, Linux or MacOS device. Know if the issue is wired, wireless or device related.

Wi-Fi performance tests are discretely run on laptops, tablets, scanners and pickers at pre-defined intervals in the background and are unnoticed by the user. Wi-Fi experience results are uploaded to the cloud. Trending data and comparison analytics are available along with device data such as WLAN drivers and signal strength. With built-in-reports, issues can be resolved before the user experiences an issue.

The 7SIGNAL Platform is equipped to handle wireless networks of any size and is completely AP agnostic. It can store 3 months of detailed historical performance data in the cloud so no need to worry about storage, backups or even feature upgrades.

Distributed organizations with large numbers of sites finally have an easy and economical way to get real-time visibility of the Wi-Fi user experience at any remote location. Instantly identify devices, buildings, floors, stores or campuses out of compliance with service level targets for Wi-Fi performance. Then take proactive and corrective action before anyone ever notices or complains.

> ❝ ONE OF OUR BUSINESS STRATEGIES IS 'ALWAYS UP'. OUR CIO LIKES TO PREACH THIS. 7SIGNAL HAS HELPED US TO IDENTIFY COVERAGE GAPS AND ACHIEVE THIS OBJECTIVE. WE CAN ANTICIPATE COVERAGE GAPS, AND THIS MAKES OUR USERS MORE PRODUCTIVE. ❞

## WHY 7SIGNAL

ENTERPRISE-WIDE VISIBILITY OF END-USER AND IOT DEVICE NETWORK EXPERIENCES

COMPATIBLE WITH ALL WLAN MANUFACTURERS, AND WINDOWS, MACOS, ANDROID AND LINUX DEVICES

CLOUD ANALYTICS WITH KEY PERFORMANCE INDICATORS INTO WI-FI NETWORK HEALTH AND DEVICE PERFORMANCE

## SCHEDULE A DEMO TODAY!

**43%**
Reduction in Unplanned Network Downtime

**3,000+**
User Productivity Hours Gained Per Year*

**670%**
3-year Return on Investment
